

Plan of results and budget 2025

CGIAR Science Program on
Policy Innovations

Purpose of the PORB

As part of CGIAR's adaptive management approach, the 2025 planning process was conducted in two phases: i) Planning Phase – This included the development of the Preliminary Work Plans and Budget, through which Program and Accelerator teams defined how their projects would be managed, including objectives, timelines, responsibilities, and required resources. ii) Re-planning Phase – This allowed for updates to the initial plans, incorporating adjustments to reflect the updates made during the re-planning window from 24 March to 23rd June 2025, ensuring alignment with the approved 2025 budget envelopes, Centre allocations, and revised priorities.

This document presents the 2025 Plan of Results and Budget (PORB) for the Policy Innovations Program. It provides aggregated costing information for planned High-Level Outputs (HLOs) by Area of Work (AoW), along with Cross-Cutting and Management components. It also outlines the implementation timelines for both HLOs and Outcomes, as articulated in the updated Theory of Change (ToC). Additionally, the PORB highlights the intervention geographies, key partners, and mapped Centres W3/Bilateral projects.

Total Cross-cutting and Management budget					1,461,816

Area of Work 1: Foresight and Prioritization					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
1.1.1 Series of policy evaluation and policy prioritization reports and dialog fora, particularly at the national level	X	X	X	X	4,057,686
1.1.2 Series of policy evaluation and policy prioritization reports and dialog fora, particularly at the national level	X	X	X	X	
1.1.4 Development and dissemination of CGIAR modeling and data systems and provision of training to partners	X	X	X	X	
Total AoW 1 budget					4,057,686

Area of Work 2: Market-led Food Systems Transformation					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
2.1.1 Evidence on policies and institutional innovations that encourage farm-level technology change is available	X	X	X	X	1,599,480
2.1.2 Knowledge available on how markets perform and respond to policies and other institutional reforms designed to improve quality, safety, efficiency, and resilience.	X	X	X	X	
2.1.3 Evidence on social protection and livelihood interventions that support FLW transformation	X	X	X	X	
2.1.4 Methodological innovations are available for policy guidance based on cost-effective and accurate evaluation of technologies, policies, and institutions	X	X	X	X	
Total AoW 2 budget					1,599,480

Area of Work 3: Governance and Political Economy					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
3.1.1 Identify examples of governance and institutional innovations for improved FLW policy coordination and trends in multi-sectoral and multi-level policy coherence across FLW systems	X	X	X	X	1,126,520
3.1.2 Developing knowledge products on the political economy impact of agrifood policy distortions (e.g.subsidies) on FLW systems sustainability and identifying incentives and opportunities for reform	X	X	X	X	
3.1.3 New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	X	X	X	X	
Total AoW 3 budget					1,126,520

Area of Work 4: WEFE Nexus Policy					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
4.1.1 Water, energy, food, and environment (WEFE) nexus models and data on synergies and tradeoffs enable informed decision- making by government and partners for evidence based policy and planning.	X	X	X	X	3,154,209
4.1.2 Evidence on WEFE nexus solutions informs government policies, investments and strengthens institutions for policy making frameworks	X	X	X	X	
4.1.3 Capacity sharing on WEFE nexus solutions and influencing global discourse and action.	X	X	X	X	
4.1.4 Governance mechanisms and institutional innovations that enable WEFE nexus solutions.	X	X	X	X	
Total AoW 4 budget					3,154,209

Area of Work 5: Country Strategy and Engagement					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
5.1.1 Knowledge products developed to inform policy choices of national and regional decision makers	X	X	X	X	1,778,399
5.1.2 Capacities developed within of think-tanks and government institutions to adopt and utilize CGIAR tools and methods and translate knowledge products into policy decisions	X	X	X	X	
5.1.3 National and regional policy engagement and dialogues to inform decision making and facilitate cross-country learning	X	X	X	X	
Total AoW 5 budget					1,778,399

Area of Work 6: Policy Knowledge Brokering Hub				2025	
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
6.1.1 Cross-cutting studies synthesizing the evidence for global CGIAR positioning on priority policy issues, with a primary focus on poverty, inequality, and decent employment for improved livelihoods	X	X	X	X	387,230
6.1.2 Enhanced repository of suitable and innovative models, methods, and tools, as well as communication materials, policy briefs, and other dissemination material on policy knowledge for addressing poverty, inequality, and decent employment developed.	X	X	X	X	
Total AoW 6 budget					387,230

Cross-Program collaboration

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Policy Innovations	Primary	Foresight and Prioritization (AOW01)	1.1 Annual cycle of outlook reports and policy dialogues prepared and hosted at global, regional, national and local scales	Various contributions received from different impact platforms and 2022-24 research initiatives.
Sustainable Animal and Aquatic Foods	Secondary	Foresight and Prioritization (AOW01)	1.1 Annual cycle of outlook reports and policy dialogues prepared and hosted at global, regional, national and local scales	Policy SP leads the 2026 Global Outlook on animal sourced foods, with contributions from the Animals SP (e.g., research, editorship).
Policy Innovations	Primary	Foresight and Prioritization (AOW01)	1.2 Policies, budgets, and investments evaluated and prioritized	Country investment prioritization and risk assessments. Forwarding- looking model-based analysis of investment trade-offs identifying priorities to drive agricultural transformation that meets multiple goals (i.e., inclusive, sustainable, resilient). Analysis conducted with national government partners to inform agricultural development strategies and investment plans. Targeting 12 countries over 2025- 2027. Deliverables linked to AoW 2, AoW3 and AoW5 for potential joint outputs and country engagement.
Better Diets and Nutrition	Primary	Foresight and Prioritization (AOW01)	1.2 Policies, budgets, and investments evaluated and prioritized	Both SPs providing funding for country nutrition studies (joint activity).
Breeding for Tomorrow	Secondary	Foresight and Prioritization (AOW01)	1.2 Policies, budgets, and investments evaluated and prioritized	Global assessment of agricultural R&D priorities. 2026 report using global model to evaluate the returns to R&D investments in different regions and different crop and animal sectors/ commodities. Expanded engagement of CG Centers and other SPs in Global assessment of agricultural R&D priorities.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Genebanks	Secondary	Foresight and Prioritization (AOW01)	1.2 Policies, budgets, and investments evaluated and prioritized	Global assessment of agricultural R&D priorities. 2026 report using global model to evaluate the returns to R&D investments in different regions and different crop and animal sectors/ commodities. Expanded engagement of CG Centers and other SPs in Global assessment of agricultural R&D priorities.
Sustainable Farming	Secondary	Foresight and Prioritization (AOW01)	1.3 Rapid response challenges identified and analyzed	Kenya study of liming and fertilizer conducted together with researchers in Sustainable Farming.
Food Frontiers and Security	Secondary	Foresight and Prioritization (AOW01)	1.3 Rapid response challenges identified and analyzed	Studies anticipating or responding to global/national food crises.
Policy Innovations	Primary	Foresight and Prioritization (AOW01)	1.4 Models & databases updated, documented and made accessible	Capacity sharing and technical partnerships. Includes (1) training courses on CG's modeling and data systems for nationl government and research partners; (2) responding to requests from national partners for tailored modeling systems and for on-the-job learning programs; and (3) transfer of modeling assets and expertise to national partners via research collaborations. AOW1 will work with AOW5 to implement a "training of trainers" approach in two or more countries where technical partner institutions express interest in building internal modeling capabilities.
Digital Transformation	Secondary	Foresight and Prioritization (AOW01)	1.4 Models & databases updated, documented and made accessible	Enhanced modeling and data systems using Artificial Intelligence (AI) and machine learning.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Gender Equality and Inclusion	Secondary	Foresight and Prioritization (AOW01)	1.3 Rapid response challenges identified and analyzed	Youth innovation policies. 2025 deliverables include (1) database identifying where youth are employed in global, regional and national agrifood systems, and how employment patterns have changed over time; and (2) country level study on potential for enhancing youth employment in focus value chains. This work will be aligned with the cross-cutting youth work program led by AOW6.
Policy Innovations	Primary	Foresight and Prioritization (AOW01)	1.3 Rapid response challenges identified and analyzed	Water policy innovations. 2025 deliverables include (1) Africa database measuring water use in different parts of the agrifood system at country and regional scales; and (2) a country-level study of trade-offs between achieving water and other development goals. This work will be aligned with the cross-cutting water work program led by AOW4.
Policy Innovations	Primary	Foresight and Prioritization (AOW01)	1.3 Rapid response challenges identified and analyzed	Fertilizer policy innovations. 2025 deliverables include single country modeling analysis of the "repurposing" of fertilizer subsidies and other agricultural support (incl. price policies) towards more cost-effective policies and investment options. This work will be aligned with the cross-cutting fertilizer subsidy work program led by AOW3.
Sustainable Farming	Secondary	Foresight and Prioritization (AOW01)	1.3 Rapid response challenges identified and analyzed	Expanded fertilizer policy innovation. (1) Modeling the regional and national impacts of the commitments made during the Africa Fertilizer Summit. (2) Regional and country studies of national fertilizer subsidies, together with other AOWs (e.g., AOW5's policy engagement and AOW3's political economy analysis).

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Policy Innovations	Primary	Market-led Food Systems Transformation (AOW02)	2.2 Knowledge available on how markets perform and respond to policies and other institutional reforms designed to improve quality, safety, efficiency, and resilience.	The Better Diets and Nutrition SP is conducting a number of studies on the role of certification and information on market performance for nutrient- rich foods. The Policy SP will coordinate with the Diets SP to ensure lessons are drawn from work undertaken across the two SPs and that complementary work is undertaken in the two SPs.
Better Diets and Nutrition	Secondary	Market-led Food Systems Transformation (AOW02)	2.2 Knowledge available on how markets perform and respond to policies and other institutional reforms designed to improve quality, safety, efficiency, and resilience.	The Better Diets and Nutrition SP is conducting a number of studies on the role of certification and information on market performance for nutrient- rich foods. The Policy SP will coordinate with the Diets SP to ensure lessons are drawn from work undertaken across the two SPs and that complementary work is undertaken in the two SPs.
Policy Innovations	Primary	Market-led Food Systems Transformation (AOW02)	2.3 Evidence on how targeted interventions can ensure agricultural transformation is inclusive and equitable.	This work will complement work on social protection undertaken in Gender Equality and Inclusion. The synthesis work will draw on work from both programs.
Gender Equality and Inclusion	Secondary	Market-led Food Systems Transformation (AOW02)	2.3 Evidence on how targeted interventions can ensure agricultural transformation is inclusive and equitable.	This work will complement work on social protection undertaken in Gender Equality and Inclusion. The synthesis work will draw on work from both programs.
Food Frontiers	Secondary	Governance and Political Economy (AOW03)	3.1: Identify examples of governance and institutional innovations for improved FLW policy coordination and trends in multi-sectoral and multi-level policy coherence across FLW systems	Food Frontiers can offer insights into how approaches to global governance may need to be aligned with the specificities of fragile political contexts
Better Diets and Nutrition	Secondary	Governance and Political Economy (AOW03)	3.1: Identify examples of governance and institutional innovations for improved FLW policy coordination and trends in multi-sectoral and multi-level policy coherence across FLW systems	Better Diets and Nutrition's AoW5 can offer insights on multisectoral governance models that facilitate sustainable, healthy diets that will complement analysis on broader institutional modalities for systems transformation

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Multifunctional Landscapes	Secondary	Governance and Political Economy (AOW03)	3.1: Identify examples of governance and institutional innovations for improved FLW policy coordination and trends in multi-sectoral and multi-level policy coherence across FLW systems	Multi-functional landscapes will provide insights into the enabling environments that facilitate (or undermine) common pool resource sharing
Scaling for Impact	Secondary	Governance and Political Economy (AOW03)	3.2: Developing knowledge products on the political economy impact of agrifood policy distortions (e.g.subsidies) on FLW systems sustainability and identifying incentives and opportunities for reform	The political economy frameworks under the AoW3 in Scaling for Impact can be applied to identify enabling environment factors for suceessful or less suceessful reforms
Climate Action	Secondary	Governance and Political Economy (AOW03)	3.3: New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	Policy Innovations to lead delivery, based on current engagement by IWMI with GEF STAP; Climate Program and Scaling to back-stop on key global policy domains
Scaling for Impact	Secondary	Governance and Political Economy (AOW03)	3.3: New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	Policy Innovations to lead delivery, based on current policy coherence work; SAAF to support capacity sharing and training approaches; Scaling to support joint Co-Scale approach.
Scaling for Impact	Secondary	Governance and Political Economy (AOW03)	3.3: New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	Policy Innovations to lead delivery, based on current policy coherence work; SAAF to support capacity sharing and training approaches; Scaling to support joint Co-Scale approach.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Sustainable Animal and Aquatic Foods	Secondary	Governance and Political Economy (AOW03)	3.3: New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	Policy Innovations to lead delivery, based on current policy coherence work; SAAF to support capacity sharing and training approaches; Scaling to support joint Co-Scale approach.
Capacity Sharing	Secondary	Governance and Political Economy (AOW03)	3.3: New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	Policy Innovations to lead delivery, based on current engagement with partners, including city authorities in Addis Ababa; SAAF to back-stop on key climate risk elements
Sustainable Animal and Aquatic Foods	Secondary	Governance and Political Economy (AOW03)	3.3: New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	Policy Innovations to lead delivery, based on current engagement with partners, including city authorities in Addis Ababa; SAAF to back-stop on key climate risk elements
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.1 Water, energy, food, and environment (WEFE) nexus models and data on synergies and tradeoffs enable informed decision-making by government and partners for evidence based policy and planning.	Climate program is providing future climate data supporting the modelling in the policy program.
Climate Action	Secondary	WEFE Nexus Policy (AOW04)	4.1 Water, energy, food, and environment (WEFE) nexus models and data on synergies and tradeoffs enable informed decision-making by government and partners for evidence based policy and planning.	Climate program is providing future climate data supporting the modelling in the policy program.
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.2 Evidence on WEFE nexus solutions informs government policies, investments and strengthens institutions for policy making frameworks	Scaling program supports the scaling of socio-technical nexus bundles.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Scaling for Impact	Secondary	WEFE Nexus Policy (AOW04)	4.2 Evidence on WEFE nexus solutions informs government policies, investments and strengthens institutions for policy making frameworks	Scaling program supports the scaling of socio-technical nexus bundles.
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.2 Evidence on WEFE nexus solutions informs government policies, investments and strengthens institutions for policy making frameworks	The guidelines developed under policy program will support sustainable farming in water scarce regions.
Sustainable Farming	Secondary	WEFE Nexus Policy (AOW04)	4.2 Evidence on WEFE nexus solutions informs government policies, investments and strengthens institutions for policy making frameworks	The guidelines developed under policy program will support sustainable farming in water scarce regions.
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.3 Capacity sharing on WEFE nexus solutions and influencing global discourse and action.	Joint developments of frameworks between Multifunctional Landscapes and Policy Innovations will improve cross-scale nexus knowledge.
Multifunctional Landscapes	Secondary	WEFE Nexus Policy (AOW04)	4.3 Capacity sharing on WEFE nexus solutions and influencing global discourse and action.	Joint developments of frameworks between Multifunctional Landscapes and Policy Innovations will improve cross-scale nexus knowledge.
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.3 Capacity sharing on WEFE nexus solutions and influencing global discourse and action.	The joint discourse on ecosystems health polices will amplify the impacts.
Multifunctional Landscapes	Secondary	WEFE Nexus Policy (AOW04)	4.3 Capacity sharing on WEFE nexus solutions and influencing global discourse and action.	The joint discourse on ecosystems health polices will amplify the impacts.
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.4 Governance mechanisms and institutional innovations that enable WEFE nexus solutions.	The joint development of best practices for inclusive and equitable nexus governance with the Multifunctional Landscapes AOW on institutions and landscape will lead to amplify the impacts.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Multifunctional Landscapes	Secondary	WEFE Nexus Policy (AOW04)	4.4 Governance mechanisms and institutional innovations that enable WEFE nexus solutions.	The joint development of best practices for inclusive and equitable nexus governance with the Multifunctional Landscapes AOW on institutions and landscape will lead to amplify the impacts.
Policy Innovations	Primary	WEFE Nexus Policy (AOW04)	4.4 Governance mechanisms and institutional innovations that enable WEFE nexus solutions.	Capacity sharing will amplify the research developed in policy program.
Capacity Sharing	Secondary	WEFE Nexus Policy (AOW04)	4.4 Governance mechanisms and institutional innovations that enable WEFE nexus solutions.	Capacity sharing will amplify the research developed in policy program.
Policy Innovations	Primary	Country Strategy and Engagement (AOW05)	5.1 National and regional decision makers use knowledge products to inform their policy choices	Policy Program contibutes national policy and stratgy analysis and engagement, whereas Future Frontiers focuses more on emergency and resilience realted studies, especially in conflict-affected settings
Food Frontiers and Security	Secondary	Country Strategy and Engagement (AOW05)	5.1 National and regional decision makers use knowledge products to inform their policy choices	Policy Program contibutes national policy and stratgy analysis and engagement, whereas Future Frontiers focuses more on emergency and resilience realted studies, especially in conflict-affected settings
Policy Innovations	Primary	Country Strategy and Engagement (AOW05)	5.1 National and regional decision makers use knowledge products to inform their policy choices	The Country Policy Hub will work closely with all programs and accelerators (and the CGIAR country convenor) concerned with policy and will serves as the go- to-place for CGIAR policy advice at the country level.
Food Frontiers and Security	Secondary	Country Strategy and Engagement (AOW05)	5.1 National and regional decision makers use knowledge products to inform their policy choices	The Country Policy Hub will work closely with all programs and accelerators (and the CGIAR country convenor) concerned with policy and will serves as the go- to-place for CGIAR policy advice at the country level.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Policy Innovations	Primary	Country Strategy and Engagement (AOW05)	5.2 Enhanced capabilities of think-tanks and government institutions to adopt and utilize CGIAR tools and methods and translate knowledge products into policy decisions.	Policy program leads the engagement with regional and national partners and coordinates with CapSha on CGIAR-wide engagement with similar partners and innovative CapSha approaches.
Capacity Sharing	Secondary	Country Strategy and Engagement (AOW05)	5.2 Enhanced capabilities of think-tanks and government institutions to adopt and utilize CGIAR tools and methods and translate knowledge products into policy decisions.	Policy program leads the engagement with regional and national partners and coordinates with CapSha on CGIAR-wide engagement with similar partners and innovative CapSha approaches.
Policy Innovations	Primary	Country Strategy and Engagement (AOW05)	5.2 Enhanced capabilities of think-tanks and government institutions to adopt and utilize CGIAR tools and methods and translate knowledge products into policy decisions.	Policy Program focuses on the overall policy research uptake and SAAF contributes livestock deep dive component to the report and related outreach activities.
Sustainable Animal and Aquatic Foods	Secondary	Country Strategy and Engagement (AOW05)	5.2 Enhanced capabilities of think-tanks and government institutions to adopt and utilize CGIAR tools and methods and translate knowledge products into policy decisions.	Policy Program focuses on the overall policy research uptake and SAAF contributes livestock deep dive component to the report and related outreach activities.
Policy Innovations	Primary	Country Strategy and Engagement (AOW05)	5.1 National and regional decision makers use knowledge products to inform their policy choices	Policy program focuses on studies and recommendations related to innovative fertilizer policies as one of its cross-AOW topics and Sustainable Farming focus on issues related to improving soil health. Policy program focuses on the role of policies (e.g. macroeconomics, subsidies) and the Scaling Program focuses on markets and institutions as key elements of a conducive business environment.

Program	Primary/ Secondary collaboration	Area of Work Title and Number	High level output	Brief description of how each Program contributes
Sustainable Farming	Secondary	Country Strategy and Engagement (AOW05)	5.1 National and regional decision makers use knowledge products to inform their policy choices	Policy program focuses on studies and recommendations related to innovative fertilizer policies as one of its cross-AOW topics and Sustainable Farming focus on issues related to improving soil health. Policy program focuses on the role of policies (e.g. macroeconomics, subsidies) and the Scaling Program focuses on markets and institutions as key elements of a conducive business environment.
Policy Innovations	Primary	Policy Knowledge Brokering Hub (AOW06)	6.1 Cross-cutting studies synthesizing the evidence for global CGIAR positioning on priority policy issues, with a primary focus on poverty, inequality, and decent employment for improved livelihoods	Policy Innovation and Gender Equality and Inclusion will contribute both financial and staff resources to execute this multi-country study. We will leverage tools and knowledge created under the Market Intelligence AoW under B4T.
Gender Equality and Inclusion / Breeding for Tomorrow and Genebanks	Secondary	Policy Knowledge Brokering Hub (AOW06)	6.1 Cross-cutting studies synthesizing the evidence for global CGIAR positioning on priority policy issues, with a primary focus on poverty, inequality, and decent employment for improved livelihoods	Policy Innovation and Gender Equality and Inclusion will contribute both financial and staff resources to execute this multi-country study. We will leverage tools and knowledge created under the Market Intelligence AoW under B4T.
Policy Innovations	Primary	Policy Knowledge Brokering Hub (AOW06)	6.2 Enhanced repository of suitable and innovative models, methods, and tools, as well as communication materials, policy briefs, and other dissemination material on policy knowledge for addressing poverty, inequality, and decent employment developed.	Examples of innovative research opportunities relate to youth- and gender-specific analyses on employment and livelihoods, savings, women's empowerment and perceptions, subjective wellbeing, food-away-from-home consumption, and food security. The evidence generated will be published (research papers / policy briefs / blog posts), shared and discussed in multi-stakeholder dialogue events, and disseminated on a project webpage.

Program	Primary/ Secondary collaboration	Area of Work		Brief description of how each Program contributes
		Title and Number	High level output	
Better Diets and Nutrition	Secondary	Policy Knowledge Brokering Hub (AOW06)	6.2 Enhanced repository of suitable and innovative models, methods, and tools, as well as communication materials, policy briefs, and other dissemination material on policy knowledge for addressing poverty, inequality, and decent employment developed.	Examples of innovative research opportunities relate to youth- and gender-specific analyses on employment and livelihoods, savings, women's empowerment and perceptions, subjective wellbeing, food-away-from-home consumption, and food security. The evidence generated will be published (research papers / policy briefs / blog posts), shared and discussed in multi-stakeholder dialogue events, and disseminated on a project webpage.
Policy Innovations	Primary	Policy Knowledge Brokering Hub (AOW06)	6.2 Enhanced repository of suitable and innovative models, methods, and tools, as well as communication materials, policy briefs, and other dissemination material on policy knowledge for addressing poverty, inequality, and decent employment developed.	B4T will lend their internal data pipeline. AoW 1/IFPRI can provide data on projected poverty levels and projected supply and demand. B4T will also lend their online platform GloMIP to make the live model and accompanying documentation available. The tool can help country prioritisation for AoW 5.
Breeding for Tomorrow and Genebanks	Secondary	Policy Knowledge Brokering Hub (AOW06)	6.2 Enhanced repository of suitable and innovative models, methods, and tools, as well as communication materials, policy briefs, and other dissemination material on policy knowledge for addressing poverty, inequality, and decent employment developed.	B4T will lend their internal data pipeline. AoW 1/IFPRI can provide data on projected poverty levels and projected supply and demand. Area of Work 1: Foresight and Prioritization					2025
					2025 (Approved Budget)
High-Level Outputs	Q1	Q2	Q3	Q4	
1.1.1 Series of policy evaluation and policy prioritization reports and dialog fora, particularly at the national level	X	X	X	X	2,112,740
1.1.2 Series of policy evaluation and policy prioritization reports and dialog fora, particularly at the national level	X	X	X	X	
1.1.3 Reports analyzing policy requests from partners or food crises' impacts on agrifood systems and food security	X	X	X	X	
1.1.4 Development and dissemination of CGIAR modeling and data systems and provision of training to partners	X	X	X	X	
Total AoW 1 budget					2,112,740

Area of Work 2: Market-led Food Systems Transformation					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
2.1.1 Evidence on policies and institutional innovations that encourage farm-level technology change is available	X	X	X	X	954,164
2.1.2 Knowledge available on how markets perform and respond to policies and other institutional reforms designed to improve quality, safety, efficiency, and resilience.	X	X	X	X	
2.1.3 Evidence on social protection and livelihood interventions that support FLW transformation	X	X	X	X	
2.1.4 Methodological innovations are available for policy guidance based on cost-effective and accurate evaluation of technologies, policies, and institutions	X	X	X	X	
Total AoW 2 budget					954,164

Area of Work 3: Governance and Political Economy					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
3.1.1 Identify examples of governance and institutional innovations for improved FLW policy coordination and trends in multi-sectoral and multi-level policy coherence across FLW systems			X	X	252,252
3.1.2 Developing knowledge products on the political economy impact of agrifood policy distortions (e.g.subsidies) on FLW systems sustainability and identifying incentives and opportunities for reform	X	X	X	X	
3.1.3 New communities of practice, political economy and policy process tools are developed and strengthened, bringing together decision makers and diverse stakeholders to strengthen science diplomacy, science policy engagement, design, and implementation.	X	X	X	X	
Total AoW 3 budget					252,252

Area of Work 4: WEFE Nexus Policy					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
4.1.1 Water, energy, food, and environment (WEFE) nexus models and data on synergies and tradeoffs enable informed decision- making by government and partners for evidence based policy and planning.	X	X	X	X	494,957
4.1.2 Evidence on WEFE nexus solutions informs government policies, investments and strengthens institutions for policy making frameworks	X	X	X	X	
4.1.3 Capacity sharing on WEFE nexus solutions and influencing global discourse and action.	X	X	X	X	
4.1.4 Governance mechanisms and institutional innovations that enable WEFE nexus solutions.	X	X	X	X	
Total AoW 4 budget					494,957

Area of Work 5: Country Strategy and Engagement					2025
High-Level Outputs	Q1	Q2	Q3	Q4	2025 (Approved Budget)
5.1.1 Knowledge products developed to inform policy choices of national and regional decision makers	X	X	X	X	1,234,752
5.1.2 Capacities developed within of think-tanks and government institutions to adopt and utilize CGIAR tools and methods and translate knowledge products into policy decisions	X	X	X	X	
5.1.3 National and regional policy engagement and dialogues to inform decision making and facilitate cross-country learning	X	X	X	X	
Total AoW 5 budget					1,234,752
